**Project Name** : PawSquad

**Role** : Test Engineer

**Environment** : Staging

**Testing Approach** : Manual Testing

**Description:** PawSquad is a marketplace that connects pet owners to pet care providers (vets, trainers, breeders, nutritionists) over multiple touch points. Our goal is to make pets healthier and happier by improving the way pet care is delivered. PawSquad for Pet parents reaching a vet isn't always easy. But with PawSquad you'll get face-to-face video consultations with certified vets in minutes.

Whatever the Pet, whatever the problem, whatever the time. PawSquad for vets and Pet care providers PawSquad Video Visits lets you observe Pets, listen and engage with pet parents and provide relevant advice and recommendations for treatment. All without ever having to leave your favourite armchair.

It's a completely new level of care that works with your schedule - and your smart phone!

- Similar price to an in practice visit (but it's all done in your living room)
- Appointments from early mornings to late evenings, and weekends too
- Everything from vaccinations to diagnostic tests and treatments

- Video call and message your vet in between consultations
- Around the clock access to PawSquad Video Consultations in emergencies
- Order and keep track of prescriptions and your pet's medical records

**Responsibilities:**

- Understanding the requirements and specifications of the complete Product which is to be tested.
- Analyzing the Requirements from the client and Participating in preparing Test cases
- Executing the Test Cases
- Defect Tracking
- Manually executing the test procedures
- Following the required set standards
- Bug tracking and followups
